Pickering Manor Achieves 5 Star Rating Again!

NEWTOWN, Pa. – Pickering Manor in Newtown recently received a 5-star overall quality rating from the Centers for Medicare and Medicaid Services (CMS) – the highest score possible. This rating places Pickering in the top 10 percent of nursing homes nationwide. We are also a Tier 1 provider for St. Mary’s Medical Center for anyone discharged from St. Mary’s needing sub-acute rehabilitation prior to going home after their hospital stay.

Pickering Manor is a non-profit facility located in the heart of Newtown Borough. It offers senior living in the form of 10 semi-detached cottages, 24 apartments, 22 private personal care rooms and 47 licensed skilled nursing and rehabilitation beds.

The 5-star quality rating system was created to help consumers, their families and caregivers compare nursing homes more easily. Ratings are taken from the following three sources of data: health inspections, staffing and quality measures. A rating is provided for each of these three sources and an overall rating is reached by combining the three.

“We are so proud,” says Michelle Knobloch, Executive Director at Pickering Manor. “Achieving this rating is a direct result of the hard work and dedication our staff gives to our residents and their families every day.”
